#### About Annex B2

Annex B2 reflects Product environmental attributes relevant for Computers and Computer Monitors. The following items from the ECMA-370 Main body are not shown in the template:

P4.1 – P4.3 Consumable materials

P9.1 TEC and Print speed

P10.2 - P10.3 Chemical emissions from printing products

P11.1 - P11.3 Consumable materials for printing products.

| Item       Ýes       No       n         P1       Products do comply with current European RoHS Directive. (See legal reference and NOTE B1)       □         P1.1*       Products do not contain Asbestos (see legal reference).       □         Comment. Legal reference has no maximum concentration value.       □         P1.3*       Products do not contain Ozone Depleting Substances: Chlorofluoroachons (ICFC), Hordochforoachons (ICFC), Hordochforoachons (ICFC), Hordochforoachons, Charbon tetrachioride, 1,1,1-trichloroethane, methyl bromide (see legal reference).       □         P1.4*       Products do not contain more than; 0,005% polychlorinated biphenyl (PCB), 0,005% polychlorinated terphenyl (PCT) in preparations (see legal reference).       □         P1.5*       Products do not contain more than; 0,005% polychlorinated biphenyl (PCB), 0,005% polychlorinated (see legal reference).       □         P1.6*       Patter with direct and prolonged skin contact do not release nickel in concentrations above 0,5 µg/cm?/week       □         P1.6*       Protwuck do not contain more than; 0,005% polychlorinated in concentrations above 0,5 µg/cm?/week       □         P1.6*       Protwuck do not contain more than 0,005% polychlorinated in concentrations above 0,5 µg/cm?/week       □         P1.6*       Protwuck do not contain more than 0,0005% of mercury or 0,002% of cadmium. (See legal reference).  | Product environmental attributes - Legal requirements         Item         P1       Hazardous substances and preparations         P1.1*       Products do comply with current European RoHS Directive. (See legal reference and NOTE B1)         P1.2*       Products do not contain Asbestos (see legal reference).<br>Comment: Legal reference has no maximum concentration value.         P1.3*       Products do not contain Ozone Depleting Substances: Chlorofluorocarbons (CFC),<br>hydrobromofluorocarbons (HBFC), hydrochlorofluorcarbons (HCFC), Halons, carbontetrachloride, 1,<br>trichloroethane, methyl bromide (see legal reference). Comment: Legal reference has no maximum<br>concentration values.         P1.4*       Products do not contain more than; 0,005% polychlorinated biphenyl (PCB), 0,005% polychlorinated<br>terphenyl (PCT) in preparations (see legal reference).         P1.5*       Products do not contain more than 0,1% short chain chloroparaffins (SCCP) with 10-13 carbon atom<br>chain containing at least 48% per mass of chlorine in the SCCP (see legal reference).         P1.6*       Parts with direct and prolonged skin contact do not release nickel in concentrations above 0,5 µg/cm<br>(see legal reference).<br>Comment: Max limit in legal reference when tested according to EN1811:2011-5. GENERAL NOTE Standard references should direct to the latest version of a standard. If an older version of a standard is used, section P15 shall be used for explanation.

NOTE B2 IEC 61249-2-21 defines maximum limits of 900 ppm for each of the substances chlorine and bromine and a maximum limit of 1500ppm of these substances combined. The standard does not address fluorine, iodine and astatine which are included in the group of halogens.

NOTE B3 and B4 A Guidance document on Chemical substances is available; see <a href="http://www.ecma-international.org/publications/standards/Ecma-370.htm">http://www.ecma-international.org/publications/standards/Ecma-370.htm</a>

NOTE B5 If a certain substance has been assigned a certain risk phrases / hazard statement in the referenced source, this does not necessarily mean the substance has been tested for all of the hazards referred to by a certain customer.

NOTE B6 Applies to a product containing plastic parts whose combined weight exceeds 100 g with the exception of printed circuit boards, cables, connectors and electronic components and bio-based plastic material.

# Lenovo ErP Lot3 Information Sheet - PC / Notebook -

As required by COMMISSION REGULATION (EU) No 617/2013 of 26 June 2013 implementing Directive 2009/125/EC of the European Parliament and of the Council with regard to ecodesign requirements for computers and computer servers (ErP Lot3).

#### Products scope of this sheet:

Desktop computer, integrated desktop computer, and notebook computer

This document is only valid in connection with the IT Eco Declaration of the specific Product.
